3. Academic Contract

This is a personal agreement between 'the student and the School'. Under this agreement, the School agrees to teach students and in return, students agree to attend lessons and fully engage in accordance with this handbook.

It is also agreed by both the School and students that:

- the School shall be entitled to make reasonable changes to the programme of study, facilities and courses being offered at its sole discretion. This discretion shall be exercised fairly and reasonably, and students shall be entitled to receive fair and reasonable notice of such changes;
- the academic judgment of the School shall be final and binding.

Presence of students and other guests inside the building is controlled through the bar-code card reader at the reception for safety and fire regulations. It is students' responsibility to make sure their presence is properly marked. A student card is strictly personal, and no student should be on the School premises without it. The student card can be obtained by downloading the Istituto Marangoni app to their personal phones.

For further information, please refer to Istituto Marangoni London Student Code of Conduct and Student Disciplinary Procedures on the VLE.

The responsibility for complying with the class regulations includes turning off mobile phones, refraining from talking during lessons and keeping appointments with School staff and tutors. Students should respect the School building. In case of any damage, students will be liable to pay compensation.

For security reasons and in compliance with the local laws, students can access the School buildings only by showing their own student card, which has to be swiped at the entrance and exit, using the bar-code readers provided.

Should the student forget his or her card, the reception staff cannot allow him/her into the building.

Smoking is not allowed on the premises. Students caught violating the School rules may be subject to disciplinary action. Any students who break the non-smoking regulation in public spaces will be charged with the fines set by the national authorities.

In order to keep students, their belongings, and the School resources safe at all times, we request that students do not allow or encourage the admission of people who are not enrolled at the School to the premises without explicit authorisation.

4.3.4 Student Feedback ('Student Voice')

Student feedback is essential to programme development and student comments are used to enhance both the successful management of the programme and the teaching/ learning strategies.

Istituto Marangoni gathers students' opinions in a variety of ways, both formally and informally. A range of methods is available, which may include (but not limited to):

- online questionnaires;
- informal contact with Programme Leaders and staff, for example, during lectures and seminars and through one-to-one appointments;
- end of unit evaluation;
- final academic year evaluation when students will be invited to reflect on their overall experience in their School;
- formal student representation by appointment or during the scheduled official meetings;
- meeting with selected students with the External Examiner (where appropriate).

Istituto Marangoni prefers that on most occasions students be identified when giving constructive feedback on the course and teaching methods.

There might be occasions when this is not appropriate, and the School recognises this exception. In these instances, programme teams and support services will ensure that anonymity and confidentiality is

a feature of evaluation mechanisms. At least twice every academic year, programme teams will relate back to students the actions taken in response to student views in order to 'close the feedback loop' and to communicate any improvements or actions being taken to resolve any matters brought up by the students.

Evaluation questionnaires will be sent to students throughout their study period, in the form of a Web link, to their IM personal email account.

These questionnaires are:

Three-Year Courses

- Unit / Subject questionnaire: students will receive it at the end of each Unit, to express their satisfaction on the single Unit (teaching, assessment, didactical materials...) and on the delivery of all subjects included in that specific Unit.
- Resources questionnaire: sent to students at the end of their first and at the end of their second year, to express their satisfaction on school resources and facilities.
- Final questionnaire: sent to students at the end of their 3rd year, to express their overall satisfaction on their study experience in Istituto Marangoni.

Intensive One Year Courses / Semester Courses

- Unit / Subject questionnaire: students will receive it at the end of each Unit, to express their satisfaction on the single Unit (teaching, assessment, didactical materials...) and on the delivery of all subjects included in that specific Unit.
- Final questionnaire: sent to students at the end of their studies, to express their overall satisfaction on their experience in Istituto Marangoni.

Master Programmes

- Unit / Subject questionnaire: students will receive it at the end of each Unit, to express their satisfaction on the single Unit (teaching, assessment, didactical materials...) and on the delivery of all subjects included in that specific Unit.
- Final questionnaire: sent to students at the end of their studies, to express their overall satisfaction on their study experience in Istituto Marangoni.

NPS (NET Promoter Score) Questionnaire:

All Students will be asked to express, within a scale from 0 to 10, how likely they would recommend studying in IM to friends or family members – and motivate their answer (this is a single question Survey).

NSS (National Student Survey):

The National Student Survey is a high-profile national survey that gathers opinions about students' time in higher education, asking them to provide feedback on what it has been like to study on their course at Istituto Marangoni London. It is organised by an external organisation based in the UK and is an influential source of public information about higher education and gives students a collective voice to help shape the future of their course.

4.3.5 Student Mentoring and SEN Coaching

- compliance with the School rules and regulations and attendance requirements.

At no time may the student call into question the decision of the selection committee or the regulations governing the selection process.

The decision of the committee is final in all cases. At no time does the School promise to exhibit student work without respecting the selection criteria. Exhibition of student work (i.e., works of art, artifacts, and designs) created to fulfil the assessment-related or other requirements of a School course are regularly exhibited publicly within the School, in galleries, trade fairs, commercial and professional premises and in many other venues.

Istituto Marangoni supports the personal involvement of students with their creative works and seeks to collaborate with them in securing opportunities for the works to be seen by the professional and public world outside the School. The School believes that public and private exhibitions are valuable instruments for developing a students' professional engagement.

Up to the time of the student's final educational assessment, the School shall have the final right to

decide whether or not work should be exhibited. During this time, and as a requirement of every course, the works may be held in the possession of the student but shall be made available to the School when requested with reasonable notice.

Throughout their course, students may have the right to exhibit their work outside the School provided they give their Director of Education reasonable notice of their intention together with details of the proposed exhibition approved by the School.

A student exhibiting on his/her own initiative outside the School will normally be encouraged to do so but the School shall be entitled to require a student not to exhibit in the following circumstances:

- where the reputation of the School may be adversely affected, decided by the sole discretion of the School director;
- if the work concerned is required by the School for assessment or other exhibition purposes. Students are entitled to sell work created within and in association with the School, provided that their School Director agrees that these works are no longer required for assessment, exhibition, or retention, or is satisfied that the work will still be available until the final educational assessment.

After completing the course student work is normally regarded as the property of the student and can be disposed of as he/she thinks fit, except that the School shall have the right to retain any piece of work for up to one year from the date on which the course ends.

Unless expressly agreed with the School (for example, if the School commissions work from a student) the intellectual property rights to works that have been created by the student, belong to the same. This remains the case, even where the School exercises its option to exhibit or retain a piece of work.

4.3.11 Cross-School Experience

“Istituto Marangoni Cross-School Experience” is the opportunity for undergraduate three-year students to enrol in a different Istituto Marangoni European School in the subsequent Academic Year to attend the same programme. The Regulation containing all related procedures, deadlines and applications modality will be shared with students on the Student Portal at the beginning of term 2.

For more information, please get in touch with the Student and Academic Services department.

4.3.12 Career Service (Career Development)

Career Service works to support students and alumni in enhancing their career, employability, and entrepreneurial skills. While working closely with the Academic staff and Industry partners, Istituto Marangoni provides targeted approaches to career development, starting from year one of the students' studies. Recognising the vast importance of this area, the Career Services department has developed a range of informative workshops and annual events to provide advice and guidance for students and Alumni. These sessions are organised by the careers team and delivered by internal staff, as well as industry guests. Key areas covered include professionalism, industry ready CV and cover letter, interviewing, personal branding, networking, LinkedIn, and portfolio presentation.

Attendance is highly encouraged at these extracurricular workshops and students can sign-up for events to fit in with their course schedules. Placement activities are supported by the Careers Services. The department provides in-depth information on the regulations and legal implications of non-accredited placements and works closely with the Admissions Department to provide the latest information for UK and International students (EU and non-EU). All our Postgraduate students have to take a mandatory 12-week placement.

Having structured courses accredited, contributes to the importance of work-based learning, and enhances students' professional practice. The details of the placement, its definition and the role of the Career Services is described in the Placement Handbook. The compulsory placements provide a direct and continual relationship with our industry partners and with that collaboration students' employability is increased.

Students are encouraged to reflect on their experience, academic background, and future career goals, when tailoring applications to industry. Career Services work closely with the Academic Staff in managing industry expectations and priorities, whilst students are encouraged to research recruitment platforms and initiate their own networking opportunities, making use of the platforms offered at Istituto Marangoni and via external bodies and competitions, to identify and address placement and employment opportunities. Placements are not guaranteed. It is up to the student to secure placement opportunities with the support of Careers Service. Students must engage with the Careers Service Team prior to and during the entire placement period. Please read the Placement Handbooks for more information regarding work placement procedures and regulations. Careers Services staff regularly undertake industry networking initiatives, visits and along with an extensive database provide strong mechanisms for ensuring up-to-date opportunities for placements as well as graduate jobs. Careers Service has recently introduced an online platform Career Network (SYMPPLICITY), ensuring approved placements and jobs are promoted to the existing students and Alumni. Our ability to reach a wide number of students through one digital platform enables us to be a leading School in promoting employability for our students, regularly offering competitive opportunities. Each student and Alumni have its own unique password protected access. When a student logs into the Simplicity platform, they are able to create their own profile (similar to LinkedIn), schedule appointments with Careers Services, access resources with guidance materials as well as apply for opportunities suitable for their programme. Istituto Marangoni has historically worked with a range of industry employers, including Armani, Burberry, Victoria Beckham, Huishan Zhang, Jimmy Choo, BVLGARI, Max Mara, Zaha Hadid, Ralph Lauren, Tod's, Tom Ford, and Vivienne Westwood. Careers Services are committed to generating new relationships with employers locally, whilst maintaining existing relationships to ensure a strong industry network.

4.4 Registration to Vote in UK Elections

All students who are UK, Irish or qualifying commonwealth citizens are eligible to vote in local and national elections. EU citizens permanently living in the UK are also eligible to vote. In order to vote, you also need to be registered on the electoral roll and the School encourages all eligible students to participate in the UK's democratic process.

You are able to register your home or term time address to participate in local and national elections. Please be aware that you can have two votes, (one from your home address and one from your term time address) in local elections but you can only have one vote in the UK's General (i.e., national elections). You can register to vote online at www.gov.uk/register-to-vote and the process is very straightforward and should only take about 5 minutes of your time.

If you are not sure if you are eligible to vote you can contact the electoral services team at your local council.

Please note being on the UK electoral roll also makes it easier to apply for certain services such as opening bank accounts and credit reference agencies.

4.5 Personal Property

Istituto Marangoni does not accept liability for loss of or damage to clothing or other property left by any person on its premises. It is therefore essential that all students take reasonable care of their personal property and do not leave valuables, money, cash cards, bankbooks, or keys unattended at any time. When using expensive or valuable personal property, you are advised to make arrangements for its insurance against being stolen or damaged outside of your home, in addition to its inclusion in any domestic contents insurance. Any lost property on the School premises should be reported to the School reception as soon as possible. Equally, if lost property is found, it should be handed in to a member of staff at the reception.

The School requires students to actively protect its equipment, much of which may be attractive to the opportunist thief. Where security devices are provided, these must be used. Rooms must not be left unattended and unlocked and code numbers or access must not be provided to other people. Students must not put themselves at risk and instead report to their tutors, the security, and the reception staff immediately if they see anything suspicious.

Appendix 1 Welcome to London

WELCOME TO LONDON, YOUR FASHION CAPITAL

Finding long term accommodation:

Finding suitable accommodation can be a challenge in London especially due to the cost-of-living crisis and housing crisis. Please take note of the following key considerations:

Soaring Rental Costs: One of the most significant difficulties in finding accommodation in London is the ever-increasing cost of rent. London consistently ranks as one of the most expensive cities in the world to live in. The high demand for housing, coupled with limited space, has resulted in skyrocketing rental prices. For students and young professionals on a budget, this can be a daunting obstacle to overcome.

Competitive Market: London's rental market is highly competitive. With a constant influx of new residents, both from the UK and abroad, available housing options are often snapped up quickly. As a result, prospective tenants often find themselves in fierce competition with many others for the same property, leading to disappointment for many.

Shortage of Affordable Housing: Affordable housing in London is in short supply. Many students and young professionals are forced to look for shared accommodations or smaller, less desirable units due to budget constraints. Finding a reasonably priced rental in a desirable neighbourhood can be a significant challenge.

Guarantor Requirements: Many landlords and letting agents in London require tenants, especially students, to have a guarantor. A guarantor is someone, typically a parent or guardian, who agrees to cover the rent if the tenant cannot. This requirement is often a barrier for international students or those whose families do not reside in the UK.

International Students' Dilemma: International students face additional hurdles when searching for accommodation in London. They may be unfamiliar with the city's neighbourhoods and rental procedures, making it challenging to navigate the rental market. Moreover, the need for a UK-based guarantor can be particularly burdensome for international students, as they may not have the option of relying on family members or close friends living in the country. One daunting aspect is the requirement by many landlords and letting agencies for students to pay six months to a year's rent in advance.

Discrimination and Bias: There have been instances of discrimination in the London rental market, particularly against certain groups, such as students or individuals with unconventional working arrangements. Landlords may harbour biases or stereotypes that affect their willingness to rent to these groups, making it even more challenging to secure suitable housing.

Fake Listings: Scammers often create fake property listings on popular websites or social media platforms, advertising attractive apartments at unbelievably low prices. These listings may include photos of the property and even detailed descriptions, luring in unsuspecting renters. Once you express interest, the scammer will request an upfront deposit or fee and then disappear, leaving you without a place to live and your money gone. Refrain from making cash payments, especially in advance. Use secure payment methods, such as bank transfers or credit cards, and keep a record of all transactions.

Here are some popular websites and methods for finding rentals in London:

- **Spareroom (sparerom.co.uk):** If you're looking for shared accommodations or roommates, Spareroom is a popular website. It's a great option for finding flat shares and shared houses.
- **Social Media:** Join local Facebook groups, Twitter feeds, or Instagram accounts dedicated to London rentals. People often post listings and share information about available properties in these online communities.
- **Rightmove (rightmove.co.uk):** Rightmove is one of the largest and most well-known property websites in the UK. It lists a wide range of rental properties, including apartments, houses, and shared accommodations, in various areas of London.
- **Zoopla (zoopla.co.uk):** Zoopla is another popular property portal in the UK. It offers a comprehensive search tool and provides detailed information about properties, including local market trends.
- **OpenRent (openrent.co.uk):** OpenRent is an online letting agent that connects tenants directly with landlords. It often offers lower fees than traditional estate agents.

Generally, the School suggests that you first arrange a temporary accommodation before leaving home. When looking for long term accommodation, it is very important to personally view the property and meet the owner(s). That is the only way you can ensure you get the place that you want without risking any unpleasant surprises. Some owners will not fix a long-term accommodation agreement without having met you personally. It may take several days or even up to a few weeks to find the right accommodation in London which suits both your budget and your needs.

Accommodation may be owned by private landlords or external organisations, which you will have to find and arrange by yourself. You can always count on the help and advice from the Information office at Istituto Marangoni London School.

Remember that the cost of privately rented accommodation might not include household bills for heating, lighting, water, and council tax. It is crucial to always check what is included in your rent. Telephone, food, or other daily living expenses will always be covered by you.

Bedsits:

A bedsit is usually a single room, in which you will live and sleep. The building might be divided into several bedsits, which will be rented by other people who may not be students. Cooking facilities may be in the bedsit or elsewhere in the building, in which case, you will have to share them. You will also have to share a bathroom with the other people living in the same building. You will be required to clean your own room, do your own laundry, and provide your own bedlinen and towels. Heating can be quite expensive.

In a bedsit you will be independent and have a lot of freedom, but it may be lonely. Bedsits vary in size and quality so you should never take a room without seeing it first and where possible, take a friend with you for your first visit to the property.

Flats and houses:

After you have been in the UK for a while and found a small group of friends, you may wish to share a furnished flat or a house together. You will share the rent, heating and lighting bills, council tax, food bills and the cleaning. This sort of accommodation can be cheaper than the other types, but large houses can be difficult to find. Again, you will have to provide your own bed linen and towels and do your own cleaning.

Note: In the case of bedsits, flats, and houses, do not sign any contract you do not fully understand. If you are unsure, take a copy of the agreement to your Information Officer who will be pleased to help you.

Student accommodation:

There are a number of providers who offer accommodation for students only (please see the Student accommodation list). Many of the providers offer information online and, unlike in the above cases, it is possible to book the accommodation prior to arriving to London. This may be a suitable solution for younger students or those who do not want to worry about finding long-term accommodation at the beginning of the academic year. Some of the locations are very popular and we recommend early booking. The minimum length of the contract is usually 3 months. There is a NIDO located within 5 minutes' walk of Istituto Marangoni which was opened in 2010. marangoniaccomodation@knightfrank.com

Fire safety in the accommodation

Keep your home safe by:

- making sure there is at least one smoke alarm on every level of your home;
- not smoking inside the building;
- placing candles, tea lights and incense burners in stable, heat-resistant holders;
- sitting at least one meter away from heaters;
- not overloading electrical sockets.

- If your flat or maisonette is being affected by fire or smoke and your escape route is clear:
- get everyone out, close the door and walk calmly out of the building;
- do not use the lift;
- call 999, give your address, the number of your flat and state which floor the fire is on.
- If there is a fire or smoke inside your flat or maisonette and your escape route is not clear:
- it may be safer to stay in your flat or maisonette until the fire brigade arrives;
- find a safe room, close the door, and use soft materials to block any gaps to stop the smoke;
- go to a window, shout “Help, fire” and call 999;
- be ready to describe where you are and the quickest way to reach you.
- If there is a fire in another part of the building:
- purpose built maisonettes or blocks of flats are built to give you some protection from fire. Walls, floors, and doors can hold back flames and smoke for 30 to 60 minutes;
- you are usually safer staying put and calling 999. Tell the fire brigade where you are and the best way to reach you;
- If you are within the common parts of the building, leave and call 999.

Appendix 2 Health & Safety

Health in London

As a student at Istituto Marangoni in London you should never forget that your study can only be a successful and happy experience when you take care of the health of your body, mind, and soul. In this section, we will cover some basic information about how and where to get medical help during your stay in London.

Before you travel, you should seek advice from the health authorities in your home country about what treatment will be covered. You may still need to take out limited medical insurance.

The National Health Service (NHS)

As a full-time student you are entitled to use the National Health Service (NHS). This system provides health care for anyone free of charge. For people who stay in the UK for more than six months, the NHS offers the following services: treatment in a hospital (both emergency and non-emergency treatment), a General Practitioner (GP) services, family planning services, treatment of certain communicable diseases, psychiatric treatment etc.

You may need to pay for: medicines prescribed by your GP, some GP services (e.g., vaccinations for travel - but not for Covid-19, getting a sickness certificate). Ask your GP for details of costs on dental treatment and optical treatment.

General practitioner (GP)

In order to get access to NHS services, you should register with a Doctor (General Practitioner, GP). Registering does not cost anything but is extremely important. You will be given detailed information about the registration with a GP on your first days at School. You should register with a GP closest to where you live and so we stress that you register as soon as you find your long-term accommodation and do not wait until you feel ill.

GPs are doctors who are trained and experienced in diagnosing a wide range of health problems including: advice on health issues, vaccinations, examinations, and treatment prescriptions for medicines referrals to other health and social services.

To register, you will need to visit the doctor's Receptionist during consulting hours, bringing a letter from your institution as a proof that you are a student. You should ask to be added to the list of the NHS patients. Most doctors' surgeries have female as well as male doctors, and if you prefer you can ask to be put on a female/male doctor's list. If you only want to be seen by a female doctor, you need to say so whenever making an appointment.

When you register with a new Doctor, the Receptionist will give you a form to fill in, then your NHS medical number will be issued and sent in a letter to your home address.

Most illnesses and other problems can be treated by the GP, but if you need to see a specialist, the GP will refer you to an appropriate hospital department. If your condition is non-urgent, you can expect to see a doctor within two working days or a health professional such as a nurse within one working day. Most GPs also run an "on-call" service, so that you can contact a doctor 24 hours a day. Your GP will give you details when you register.

Depending on the medical problem, you may be treated as an in-patient (where you are admitted to a ward and stay there overnight or longer) or as an out-patient (where you visit the hospital during the day for an appointment). If you think you need to see a specialist, you should approach your GP first and ask her or him to refer you.

Emergencies

For an ambulance call 999.

If you need immediate medical assistance (for example, because of an accident), dial 999. The call is free. An operator will ask you "which emergency service do you require, Fire, Police or Ambulance". Be ready to tell the emergency services what has happened and where you are. If someone is injured and needs to go to the hospital ambulance staff will arrive and take the person to an Accident and Emergency department, and in some cases both police and the Fire Service will also attend an accident.

Private medical insurance

Even being covered by the NHS for medical treatment, you may find that there are long waiting times for some services. An insurance policy which gives you access to private medical care could give you much quicker access to the treatment you need.

If you have medical insurance in your home country, check whether you can extend it to cover your stay in the UK, as well as looking at options available from UK insurers.

Personal safety

The chances of you becoming a victim of a violent crime are relatively low. Violent crimes by strangers in public places are not very common and account for a small part of recorded crime.

It can be useful to be aware of some of the risks and take some safety measures. Below you can find some general tips to avoid such incidents.

In general, it is better and safer to avoid any kind of confrontation with strangers. Just walk away if you are being hassled or provoked. Most muggings and assaults happen outside pubs and clubs, between 10pm and 6am. When you are out in the centre of the city – especially if you are having a big night – be careful. Never leave your drink alone, ask a friend to look after it, or buy a new one.

If you regularly go jogging or cycling, stick to well-lit roads and consider varying your route. If you wear personal devices to listen to music, remember that you cannot hear traffic, or somebody approaching from behind you.

While walking in the street (even on the sidewalk), beware of moped thieves (one of two people on a motorcycle, usually wearing a full-face helmet and plain black clothes). Store your mobile phone and other devices in your bag or pockets if possible.

Have your keys ready and within reach well before you arrive at your door. Carry them on you, if possible and not in your bag. If you think you're being followed, cross the road to see if they follow. If you are still worried, go to the nearest public place and call the police or speak to any security staff on hand.

In an emergency, call the Police on 999.

Appendix 3

Student Representation

Student Representation

Istituto Marangoni is focused on implementing a rigorous process of improvement of his programmes and services. In particular, Istituto Marangoni recognises that the “Student Voice” is a crucial element in this process since the main aim is to give a prominent role to the student feedback structure. For this reason, in order to highlight possible areas in which an improvement can be made, students are strongly encouraged to express their feedback. One of the modalities that allow students to express their opinions is through Student Representation: students can be elected as Representatives for their programme acting as spokespersons for the entire academic year.

The representatives’ role

Programme representatives play a crucial role in the management and improvement of Istituto Marangoni’s activities. As a student representative you are asked to attend and actively participate in staff-student meetings and supply constructive feedback on your teaching and learning experience.

Student Representatives are required to:

- attend Programme Representative induction;
- complete Programme Representative training courses;
- communicate the views of their student group to academic and managerial staff at the School;
- actively discuss the positive aspects of the course along with areas in need of improvement;
- attend meetings, e.g., Staff-Student consultative meetings and Programme Committee meetings, focus groups meetings, other School’s committees External Examiner visits organised by the school. These meetings allow representatives to speak directly to staff and take an active part in shaping the future of their study programme;
- communicate decisions made at these meetings with the students you represent;
- communicate to students the importance of suggesting and highlighting possible improvements;
- guide students in understanding the value of programmes and education they are receiving.

The representative meetings

Official meetings within Istituto Marangoni will involve programme representatives and key staff members.

Each meeting should have a written agenda, distributed to all those attending, and minutes of the relevant points brought up in previous meetings (student representatives will be consulted in the preparation of these minutes). Prior to each meeting, representatives will be asked to gather feedback from their students across the programme of study on the study programme and the school as a whole. It is then crucial that representatives speak to other students before attending the meeting and represent their views there.

Programme Representative skills

Being an ‘issue-scanner’: raising concerns to programme leaders, programme representatives need to make sure of speaking on behalf of everyone, to have the situation clear, to be able to produce evidence about the existence of the issue and being reasonable about how you convey a problem.

Being clear and concise: Programme representatives are always welcome to contact staff members to raise issues. It is very important to have a clear vision of the aim and objectives of the meeting to be clear and concise, and also diplomatic - which is a very important skill in any job situation. Consider sending an email outlining the issue before the meeting, this could save time.

Being proactive, positive; Programme representatives are expected to raise both good practice examples and areas of improvement about programmes and School life but always using a proactive and positive approach.

Concerns have to be discussed in a constructive way, also presenting possible solutions that could be achieved.

Being pertinent: saying the right thing at the right time. When the Programme Representative needs to raise a concern about a single staff member (or any other type of potentially sensitive topic) they are invited not to raise this at a meeting as it is considered bad practice. It is recommended that the Programme Representative discusses it first with their Programme Leader who will ensure to follow up on the matter and report back any outcomes achieved following the investigation process.

Being self-conscious: it is important to remember to never be afraid to ask questions in meetings or any additional clarification before or after this: clarifications raised could be useful also for others.

Communicating effectively: communicating with everyone is not always easy. People will find it easier to talk about aspects of their course that they don't like but may find it hard to say how the course could be improved. It is also important to remember that some people are more vocal than others, that some will have language difficulties, others will lack the time to give you feedback and some will simply be at a loss for what to say about the course.
